SB RANDEr GROUP

Sri Bhagirath Textiles

Spinning quality into yarns

SB Rander Group

Established in the year 1946, SB Rander is today a diversified Group with interests spanning across sectors like Textiles, Commodities, Natural Stones, Infrastructure Development and Realty. The Group started its activities in the Textile sector, when the founding father, Late Shri Bhagirathji Rander started operations as an importer of silk from Bengal. His principle of value-driven entrepreneurship - earning goodwill and putting customer interests before profits, continues to be the guiding principle behind the Rander Group's growth over the years. The Textile sector continues to be the focus area and growth driver for the Group; with Sri Bhagirath Textiles Ltd. playing a significant role in covering the textile value chain.

Sri Bhagirath Textiles Ltd.

Continued commitment to quality

Founded in 1996, Sri Bhagirath Textiles is a testimony to growth driven by adherence to quality and commitments. What was started by Mr. Ramesh Rander as a humble unit of 12,678 spindles synthetic spinning capacity, has grown many folds over the years. Today, Sri Bhagirath Textiles is a highly professional organisation, with an ISO 9001:2008 Quality Management Certification, wide range of products on the offering, global reach and a robust infrastructure to boast of. The company's production capacity has doubled with the addition of 2200 rotors offering open end yarns; making Bhagirath India's first 100% Viscose Open End plant. The company has also commissioned a completely automatic cotton ginning plant with an annual capacity of 70,000 bales to secure raw material supplies. Further, the company is coming up with a completely automatic 25000 spindles ring spinning plant at Mohali, Nagpur.

Enhancing Products & Services

With investments in Infrastructure

SBTL is committed to investing in creation of state-of-the-art infrastructure in order to offer the highest quality products.

Capacity

SBTL has an installed capacity of 25000 spindles and 2160 rotors and 6 TFO (Two for One) machines. This unique combination enables the company to cater to various customer segments with differentiated offerings securing foothold across markets. The Ring Spun unit and the Open End unit have a monthly capacity of 1200 tons each, and the capacity for Double yarns is 50 tons a month.

Technology

SBTL has a culture of constantly upgrading the technology to keep up with the latest trends in the market and ensuring the highest quality products at the best price points. The company has invested in imported machineries, where not a single machine is older than five years.

Quality Checks

SBTL maintains strict quality checks at various stages of production.

Raw material:

- 100% checking of cotton samples manually and by USTER HVI SPECTRUM
- Manual picking of contamination with attractive incentive schemes for the same
- Loptex fibre scanner at blow room stage
- Proper cement floor for storage of all raw material bales

In process:

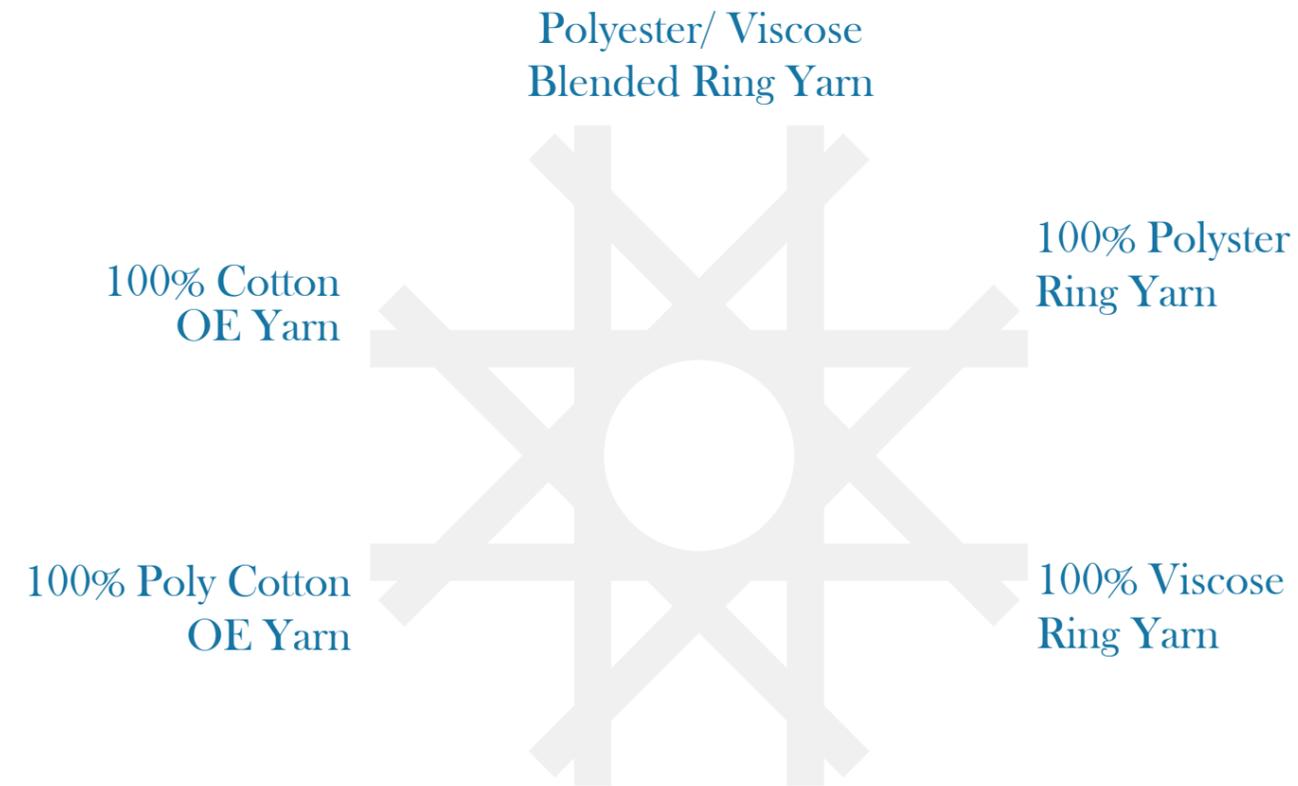

- All cards attached with auto levellers for utmost consistency
- USTER yarn clearers at winding stage to eliminate contamination/uneven yarns
- Oerlikon CYRO clearer at autocoro stage to cut any color contamination at yarn stage
- All humidity plants installed with variable frequency drives maintaining required humidity at all times
- State-of-the-art laboratory equipped with Uster UT-4 and other testing machinery

Packing:

- All yarns produced (100%) are passed through ultraviolet light to eliminate any contamination
- All packing workers wear hand gloves while packing the yarn
- Minimum 20% sample testing of each lot during the process and after manufacturing

Warehousing

To ensure quality consistency in cotton yarns throughout the year, SBTL also has a huge warehousing capacity of 12000 bales.

Ever-evolving range of products

Meeting market needs

At Bhagirath, we strive continuously to improve and offer the most superior products to our clients. We are geared to offer a varied range of products at the best price points. Our Ring Spun unit offering constitutes of counts 15 to 30 single & double 100% synthetic and blended yarns. Our Open End unit offers counts 12 to 20 PC and 100% cotton single and double yarns. With a rich experience in export markets, we also offer a wide variety of packing options like pallet, carton and HDPE bags.
